The swiss Trio, energetic and innovative border crossers between Hardcore and Avantgarde, plays compositions of Michael Wertmüller (drummer of Peter Brötzmann's FULL BLAST outfit, Ex-Alboth!) – breath-taking, radical, exact.

The „Hammond Avantcore Trio“ Steamboat Switzerland is a damn wild and absolutely virtuos project. They played different festivals - from „Donaueschinger Musiktage“ and „Moers“ to the Londoner „Meltdown Festival“. The group combines elements from rock, metal and contemporary scores. The sounds exchange between „Dark Power Ambient“ and „Boulez On The Rock“(Eckhart Liess)

They released 5 albums so far on the German Avantgarde-Label GROB and one on Swiss' UNIT.

Recorded live at Powerplay Studios (Mauer/CH) by Andy Neresheimer in September 2012.
Mixed by Gareth Jones (London) January 2013.
Mastered by Martin Siewert (Wien) February 2013.
Produced by Peter Bürli
Artwork by Lutz & Guggisberg.
